Visa Status: Job Seeker Residence Permit, § 20 (1) AufenthG

PROFILE

Technology and innovation management graduate (M.Eng., thesis 1.3) with 2+ years across a global industrial B2B organisation and an early-stage start-up: *process optimisation*, **data analytics**, product and UX delivery, and cross-functional *stakeholder management* in international teams. Diagnosed 21 process gaps between Bosch Rexroth HQ and its country units and delivered an adopted alignment model, then moved into the sales-analytics team to build the **Power BI** and **SAP** reporting behind it. Seeking a permanent role in Germany in **Product Management**, **Digital Transformation**, **Business Analysis**, or **Project and Process Management**.

PROFESSIONAL EXPERIENCE

Working Student, Digitalisation & Data Analysis for Sales Distributor

Mar 2025 – Aug 2025

Bosch Rexroth AG, Global HQ Sales & Distribution Management, Ulm, Germany

- Built **Power BI** dashboards and structured data models tracking distributor performance across 20 countries, used by sales leadership for weekly **KPI** reviews and replacing manual Excel reporting.
- Extracted and analysed sales and pricing data in **SAP Analytics Cloud**, delivering quotation and margin analyses that gave managers visibility on performance by product line and geography.
- Ran customer satisfaction surveys in **Qualtrics** and mapped internal tool adoption in **Google Analytics**, lifting response rate by 10% and producing 4 UX and efficiency recommendations for product and development teams.
- Coordinated distributor training across 20 countries and gave analytical and business support to the SDM Director and sales engineers, turning raw data into decision-ready insight for *stakeholder* reviews.

Master's Thesis, International Collaboration Platform (HQ to Country Units)

Sep 2024 – Feb 2025

Bosch Rexroth AG / Hochschule Harz, Ulm, Germany · Grade 1.3 (Very Good)

- Ran a mixed-methods study (surveys plus interviews with Country Sales Heads and Regional Directors) and performed **root-cause analysis**, identifying 21 critical process gaps in escalation paths, feedback loops, and knowledge transfer.
- Designed the Expectation Exchange Model, a **process design** framework of roles, cadences, communication templates, and KPIs, then built a phased implementation roadmap stress-tested with Sales Heads, Product Managers, and the Sales Director.
- Presented the model at Director level, where it was acknowledged as directly relevant to ongoing *change management* and *digital transformation* initiatives across an 80+ country footprint.

Multimedia Management Intern, Sales & Distribution Management

Feb 2024 – Jul 2024

Bosch Rexroth AG, Ulm, Germany

- Converted stakeholder interviews and **user research** into structured **UX requirements** (wireframes, annotated mockups, user flows) for internal sales web applications, driving a 17% increase in usability and engagement.
- Engineered an AI-powered content pipeline with **Synthesia**, OBS Studio, and Adobe Premiere Pro, enabling one creator to produce multilingual training video without a studio and cutting production time and cost.
- Built 7-language learning paths in the **LMS**, owned UX consistency across internal and customer-facing tools for Tier-2 customers globally, and ran the internal newsletter keeping regional sales managers current on product and pricing.

Founder's Associate (Product, Operations & GTM)

Jan 2021 – Jul 2022

Hello Skate Mobility Pvt. Ltd., electric mobility start-up, Ahmedabad, India

- Shaped the product roadmap with the founder using **JTBD**, funnel and cohort analysis, wrote **PRDs** with defined success metrics, and ran A/B tests to validate UX and messaging before rollout.
- Led **GTM** strategy for new city and campus launches: market-entry research, regulatory localisation, partnership negotiation, and deployment logistics, resulting in 2 B2B enterprise partnerships.
- Set **OKRs** and KPIs for weekly data reviews, owned the first CRM and support workflows, and managed remote *cross-functional delivery* across Engineering, Marketing, and Operations at 95%+ fleet availability.

SELECTED PROJECTS

ReVamp, Smart Wardrobe (Start-up Simulation)

Nov 2022 – Feb 2023

Hochschule Harz, Innovation Management

Full product-to-business cycle for an IoT concept: user research, **RICE** prioritisation, MVP scoping, phased **roadmap**, business model canvas, competitive analysis, GTM plan, and 3-year projection.

Data Analysis for a Drone Enterprise, SQL & BI

Sep 2022 – Feb 2023

Hochschule Harz, Data Management & Analytics

Designed and populated a relational database from scratch and wrote complex multi-table **SQL** queries producing operational reports and process optimisation recommendations.

Sustainable Agriculture, Technology Assessment

2023

Hochschule Harz, Technology Assessment & Sustainability

Applied **PESTEL** analysis and a Technology Radar to precision farming, AgriTech IoT, and AI crop optimisation, producing 4 SDG-aligned solutions as a ranked innovation roadmap.

SKILLS

Digital Transformation & Project Management: Process Optimisation, Change Management, Requirements Engineering, Stakeholder Management, Cross-Functional Project Delivery, Implementation Roadmapping, KPI and OKR Definition, Root-Cause Analysis, Agile Ways of Working.

Data & Analytics: Power BI, SAP Analytics Cloud, SQL, Google Analytics, Qualtrics, Microsoft Excel (Pivot, Modelling), Dashboarding and Reporting, Funnel and Cohort Analysis, Survey Design.

Product & UX: Product Roadmapping, PRD Writing, JTBD, RICE Prioritisation, A/B Testing, User Research, Journey Mapping, Wireframing, Figma, Adobe XD, Design-to-Dev Handoff, GTM Strategy, Market and Competitor Research.

AI & Emerging Tech: Generative AI for research synthesis, content and process automation (Claude, Microsoft Copilot, Notion AI), Prompt Engineering, Synthesia, AI-Powered Content Pipelines.

Certifications: Aha! Product Management Professional · Microsoft Certification in Generative AI.

LANGUAGES

Languages: English (C2) · German (B1) · Hindi (C2)

EDUCATION

M.Eng. Technology & Innovation Management, Hochschule Harz, Germany

2022 – 2025

Thesis: International Collaboration Platform (HQ to Country Units), Grade 1.3 (Very Good)

B.Eng. Automobile Engineering, Gujarat Technological University, India

2018 – 2021

CREATIVE & COMMUNITY

Founding team member (freelance), Amazing Amdavad: helped grow a city-marketing media brand from 7K to 200K followers. Creative Head, LFA University Magazine: 6 editions, plus two student clubs founded. Freelance photographer (fashion, product, events) since 2018.
