PROFILE

Product and transformation professional with 2+ years at Bosch Rexroth (Global HQ) and a seed-stage start-up: BI dashboards across 20 countries, 21 diagnosed process gaps, AI content pipelines, and full product/GTM ownership. Aha!-certified, M.Eng. in Technology & Innovation Management (thesis 1.3). Seeking a permanent role in **Product Management**, **Digital Transformation**, or **Business Analysis** in Germany.

PROFESSIONAL EXPERIENCE ↗

Working Student, Digitalisation & Data Analysis for Sales Distributor ↗

Mar 2025 – Aug 2025

Bosch Rexroth AG, Global HQ, Ulm, Germany

- **Built Power BI dashboards** on live SAP backends for distributor performance and assortment management across 20 countries, replacing manual Excel reporting for sales leadership.
- **Extracted and analysed** quotation and margin data in **SAP Analytics Cloud**, delivering decision-ready pricing insights to the SDM Director and regional sales engineers.
- **Designed customer satisfaction surveys** in Qualtrics (targeting, question design, follow-up sequences), improving response rate by 10% and surfacing 4 concrete UX recommendations.

Master's Thesis, International Collaboration Platform (HQ to Country Units) ↗

Sep 2024 – Feb 2025

Bosch Rexroth AG / Hochschule Harz, Ulm, Germany

- **Diagnosed 21 critical process gaps** through root-cause analysis of HQ-to-country collaboration: unclear escalation paths, missing feedback loops, and inconsistent knowledge transfer across 80+ countries.
- **Designed the Expectation Exchange Model**, a structured framework with defined roles, cadences, KPIs, and communication templates for aligning HQ strategy with country-level execution.
- **Built a phased implementation roadmap** stress-tested through alignment sessions with Sales Heads, Product Managers, and the SDM Director, who formally acknowledged the model for ongoing change initiatives.
- **Grade: 1.3 (Very Good)** on the German 1–5 scale; model formally adopted by the SDM Director.

Multimedia Management Intern ↗

Feb 2024 – Jul 2024

Bosch Rexroth AG, Sales & Distribution Management, Ulm, Germany

- **Engineered an AI video production pipeline** using Synthesia, OBS Studio, and Adobe Premiere Pro, enabling one creator to produce multilingual LMS training videos across 7 languages without native speakers.
- **Improved UX/UI of internal sales tools** by converting stakeholder interviews into structured requirements (wireframes, mockups, user flows), driving a 17% increase in usability and engagement.
- **Built 7-language LMS learning paths** across product categories and sales workflows, standardising distributor onboarding from Brazil to Germany to the same training baseline.

Founder's Associate (Product, Operations & GTM) ↗

Jan 2021 – Jul 2022

Hello Skate Mobility Pvt. Ltd., Ahmedabad, India (seed-stage, remote-first)

- **Shaped the product roadmap** with the founder using JTBD and cohort analysis, wrote PRDs with defined success metrics, and ran A/B tests to validate UX and messaging before rollout.
- **Led GTM strategy** for new campus launches: market-entry research, regulatory localisation, partnership negotiation with campus administrations, and deployment logistics, securing 2 B2B enterprise partnerships.
- **Managed fleet operations** at 95%+ availability via structured maintenance scheduling, while setting KPIs/OKRs for weekly cross-functional delivery across Engineering, Marketing, and Operations.

SELECTED PROJECTS

ReVamp, Smart Wardrobe (Start-up Simulation) ↗

Nov 2022 – Feb 2023

Full product-to-business cycle for an IoT wardrobe concept: user research, **RICE** prioritisation, MVP scoping, clickable **Figma** prototype, Business Model Canvas, revenue model, GTM plan, and investor pitch deck.

Data Analysis for a Drone Enterprise, SQL & BI ↗

Sep 2022 – Feb 2023

Designed a relational database from scratch (aircraft, pilots, missions, clients, maintenance, finance), wrote complex multi-table **SQL** queries producing operational reports and data-driven optimisation recommendations.

Bias and Artificial Intelligence, Research Presentation ↗

2023

Synthesised algorithmic-fairness literature with case studies (hiring, credit scoring, facial recognition, content moderation) into an accessible presentation for non-technical audiences on **AI ethics** and responsible deployment.

SKILLS

Digital Transformation & Project Management: Process Optimisation, Change Management, Requirements Engineering, Stakeholder Management, Cross-functional Project Delivery, Implementation Roadmapping, KPI Definition, Root-cause Analysis, Agile Ways of Working

Data & Analytics: Power BI, SAP Analytics Cloud, SQL, Google Analytics, Microsoft Excel, Survey Design (Qualtrics), Data Modelling

Product & UX: PRD Writing, JTBD, RICE Scoring, A/B Testing, User Research, Journey Mapping, Wireframing, Figma, Adobe XD, Aha! (Certified)

AI & Emerging Tech: Synthesia, Claude, Microsoft Copilot, Prompt Engineering, Generative AI (Microsoft Certified), Arduino IDE

LANGUAGES

Languages: English (C2) · German (B1) · Hindi (C2)

EDUCATION

M.Eng. Technology & Innovation Management, Hochschule Harz, Germany

2022 – 2025

Thesis: International Collaboration Platform (HQ to Country Units) ↗, Grade 1.3 (Very Good)

B.Eng. Automobile Engineering, Gujarat Technological University, India

2018 – 2021

CREATIVE & COMMUNITY

Founding team member (freelance), Amazing Amdavad: grew a city-marketing media brand from 7K to 200K followers across Instagram, Facebook, and YouTube. Creative Head, LFA University Magazine: 6 editions, plus founded two student clubs. Freelance photographer (fashion, product, events) since 2018.
